Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 April 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 11-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no mention in the specification of a composition containing "less than about 2.5" weight percent vinyl aromatic-unsaturated nitrile resin. The lowest number shown is 1% in the original claims. Less than that constitutes new matter and so does the "about".
3. Claims 11-18 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for 1-10 weight percent of SAN, does not reasonably provide enablement for less than about 2.5 weight% of SAN, which includes 0.00000001%. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims. The claims are broader than the specification.
4. Claims 19-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to

which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no mention in the specification of a SAN copolymer having a number average molecular weight of less than 100,000. Only the 10,000 to 100,000 range is shown. Less than 10,000 is new matter. There is no showing of the "about " 2,000 to "about" 21,000 range either. The "about"-s are also new matter.

5. Claims 19-23 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a SAN molecular weight range of 10,000-100,000 and a PC molecular weight range of 2,000-21,000, does not reasonably provide enablement for a SAN molecular weight range of less than 100,000 and a PC molecular weight range of about 2,000 to about 21,000. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims. The molecular weight ranges claimed are broader than the specification.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 11-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim Rejections - 35 USC § 103

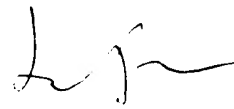

9. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
10. Claims 11-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gosens et al. 5,204,394, Yang et al. 5,643,981 or Buysch et al. 4,883,835.
11. Anticipating the removal of the new matter, the rejections elucidated in Papers #11, #14, #19, #23 and #29 are maintained in their entirety for the reasons explained in the decision by the Board of Appeals and Interferences, in Paper #26, affirming the examiner.
12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (703) 308-2460. The examiner can normally be reached on 7:00 a.m-5:30 p.m. Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (703) 306-2777.
